Lawmakers- by banning uber you are putting countless South Carolinians at risk. We use this service bc it is safe and reliable. Would you rather a single girl who's intoxicated call a cab by herself? I'm a 31 yr old single mother in greenville and I have used uber more times than I can count. It has kept me from driving drunk and it has kept me from riding alone in a possibility dangerous and unreliable cab. If you have the well being of the people of your state in mind then you will keep uber legal in sc. I don't know what id do without it.

Thank you.

Wendy Bignon

**Subject:** Uber

To whom it may concern,

I wanted to share my opinion on Uber. Our experience has been that Uber massively improves the convenience, affordability and availability of paid for transportation in the Charleston area. Uber is consistently less than 50% as expensive as the competition to ride from downtown Charleston to our home, and has encouraged us to use third party transportation instead of driving. This allows us to enjoy the city without the responsibility of operating a vehicle after being out downtown. Our experience is by no means unique and demonstrative of the public good that more competition in this area of commerce creates. Hampering this type of competition to protect parochial interests will almost certainly be a net negative for consumers.

thank you.  
Scott

South Carolina as usual is light years behind from the more technically savvy states. You need to approve this and get on with it. Uber exceeds all the requirements you have placed on taxis including background checks.

Subject: Uber

Good Afternoon,

As a consumer and someone who has used Uber I felt it important to state my opinion on this matter. I have been nothing but pleased with my experiences dealing with Uber drivers. The biggest pros for me are reliability and convenience. I have ordered a taxi in Charleston and waited 45 min only to have the cab not show up, at which time I had to call another company and wait another 45min for an actual ride to show up. When using Uber I wait 3 min and have NEVER been stood up. Being a female, the piece of mind I get from knowing I will not be stranded is huge. Many major metropolitan areas have had success with Uber, we're not inventing the wheel here. In my opinion Charleston residents should have their right as consumers to choose their service provider. If that happens to be Uber, so be it.

I support uber in South Carolina. The rides are clean, secure, efficient, accessible, and reasonably priced.
